By the terms of the proposed Administrative Settlement Agreement, these parties will together pay \$1,440,720 to the Hazardous Substance Superfund. EPA applied its June 3, 1996 orphan share guidance to the facts at this site and determined that application of the orphan share policy was indeed appropriate. EPA determined that the maximum orphan share compensation at this site was \$562,500. When the orphan share amount is added to the settlement offer, the total is \$2,003,220. This amount represents 95.4% of EPA's \$2.1 million in past response costs.

In exchange for payment, EPA will provide the settling parties with a covenant not to sue for liability under section 107(a) of CERCLA, to recover past response costs incurred through January 9, 1998.

For a period of thirty (30) days from the date of this publication, the public may submit comments on EPA relating to this proposed settlement.

A copy of the proposed Administrative Settlement Agreement may be obtained from the Superfund Records Center located at the U.S. Environmental Protection Agency, Region VIII, 999 18th Street, 5th floor, Denver, Colorado 80202. Additional background information relating to the settlement is also available for review at the Superfund Records Center.
